

# CHIBUOKEM EGBUCHULAM

## FRONTEND DEVELOPER

I am a highly skilled front-end developer with over 3 years of experience in HTML, CSS, JavaScript, TypeScript, ReactJS, and VueJS. I enjoy creating user-friendly interfaces that are visually appealing and easy to use. My strong collaborative skills enable me to work efficiently with other developers, designers, and stakeholders. I am committed to constantly improving my skills and staying up-to-date with the latest front-end development trends to deliver exceptional code and user experiences.

## Past Projects

### ChitChat - Social Media Web App

- Developed a social media web application that allows users to create posts, like, and comment on them.
- Used Firebase Authentication, Firestore Database and Firebase Storage for backend services.
- Implemented user profile and avatar features, enabling users to view profiles and change their avatars.
- Integrated Firebase SDKs into the application, making API calls to fetch user-generated content and store media files such as profile pictures.
- Tools used: Reactjs, Chakra UI, React Icons, Firebase, vercel, etc

### Project: GitHub Profile-Vue

- Built a Vue.js application that allows users to search for and view GitHub profiles
- Utilised the GitHub API to fetch user data and display it in a responsive UI
- Created components for different parts of the UI, including the search bar and user profile card
- Deployed the application using GitHub Pages
- Tools used: Vue.js, Vue router, Axios, GitHub API, GitHub Pages, etc

## Soft Skills

- Communication
- Teamwork
- Computer programming and coding
- Problem-solving
- Multitasking
- Attention to detail

## Technical Skills

- HTML5, CSS3
- JavaScript
- TypeScript
- ReactJs
- VueJs
- Firebase
- SASS
- Styled-Components
- REST APIs
- Version control tool - Git, Github, BitBucket
- TailwindCSS
- Material UI
- Figma, Photoshop
- Chakra UI
- Jira
- SEO

- Created a modular and reusable codebase that promotes maintainability and scalability.
  - Achieved a high level of functionality and user experience without the use of a back-end platform.
  - Demonstrated our ability to work collaboratively and see a project through from ideation to deployment.
  - Tools used: Reactjs, Context API Material-UI, styled-components, Netlify, etc

Work History

2021 -  
PRESENT

Frontend Developer

Ascendancy (Lagos, Nigeria)

- Write highly maintainable, solid code for software system, forming core framework and earning consistent praise from subsequent developers since initial version
- Adjust design parameters to boost performance and incorporate new features
- Collaborate with clients to define solution requirements, accounting for applicable development variables
- Develop new user-facing features using ReactJs with consideration to boosting performance
- Translate designs and wireframes built in Figma into high-quality code
- Collaborate with back-end developers and web designers to improve usability

JAN 2016 -  
DEC 2020

Information Technology Instructor

SouthPointRoyal School (Edo, Nigeria)

- Trained students on basic computer software fundamentals
- Recommended software improvement for school website
- Maintained and improved the e-learning facility

Education

2008 -  
2013

Federal University of Technology Owerri, Imo State, Nigeria

Bachelor of Engineering Degree, Electrical and Electronics Engineering

04/2022 -  
06/2023

AltSchool Africa

Diploma in Frontend Engineering, Frontend Engineering
